AN IRIS SPECIAL

OF PARTICULAR INTEREST TO GROWERS

Rose Unique: Bright rose; exceedingly free flowering; very early.

100 for \$5.00; 1,000 for \$35.00

JAPANESE IRIS

I have a gorgeous collection of choice Japanese Iris, gathered during a period of several years from many different sources. I doubt if there is a finer collection anywhere. They are all named varieties, but as the nomenclature of Japanese Iris has never been properly determined, I do not sell them by name. I offer one each of ten choice distinct varieties without labels for\$5.00.

10 each, varieties kept separate, but not labeled, for \$35.00.

The newer varieties are as beautiful as the finest orchids, as free flowering as a field of buckwheat and most of them are as hardy as an oak. They will grow in any sort of soil and in full sun or partial shade. No flowers produce so great a range of rich, startling colors, or as many different types of fragrance, or as many blooms to the square foot as the newer finer varieties such as AMBASSADEUR, BALLERINE, OPERA, MADAME GAUDICHAU, SHEKINAH, TROOST SEMINOLE, DREAM, LENT A. WILLIAMSON, LORD OF JUNE, PROSPERO, ASIA, AMBIGU, QUEEN CATERINA, LA NEIGE, LEVERRIER, MAGNIFICA, WHITE KNIGHT, SAPPHIRE, LADY FOSTER, MILDRED PRESBY, E. H. JENKINS, MARY WILLIAMSON, VALERY MAYET, PHYLLIS BLISS, SUSAN BLISS, ETC. Such varieties will never be common.

And at a moderate price: ALCAZAR, ARCHEVEQUE, DALILA, IRIS KING, PARISIANA, RHEIN NIXE, MAMIE, PALLIDA DELMATICA will never lose their interest.

Mrs. Alan Gray is of particular interest because of its fall blooming proclivities, being the only variety that produces, with a fair degree of regularity, the second crop of flowers in the fall. It is, in addition to this, free flowering and very beautiful.

And Rose Unique, on which I am making a special price for quantity this season (100 for \$5.00) is a wonderfully brilliant, free flowering variety, of special value for landscape purposes and attracts much favorable comment. I have never met anyone who did not like it. It has the added quality of being very early.

A FASCINATING HOBBY

Just as others get so much pleasure out of collecting fine paintings, my hobby for twenty years has been collecting the world's choicest flowering plants; and I have found it a most fascinating hobby. This collection of one hundred of the world's choicest irises is the result of many years' study.

Since my last catalog is now out of print and my new catalog is not yet ready, I have prepared this folder, offering what I consider to be the hundred choicest varieties of iris for the commercial grower regardless of price. I have over 800 varieties in my entire collection.

***RATINGS.** The figures given before each variety are the ratings given by the Jury appointed by the American Iris Society in 1921. The highest rating (9.6) was given to Lent A. Williamson—which is included in this collection. Princess Beatrice was second, closely followed by Ballerine, Ambassadeur, Magnifica, Queen Caterina, Asia, Avalon, Lord of June and Dominion.

9.5 is considered almost perfect.	7.0 good
9.0 very fine	6.0 good but not outstanding
8.5 fine	5.0 fair.
8.0 very good.	Below 5.0 poor

Notice the uniform high ratings given to each of the varieties listed in this leaflet and notice the absolute lack of poorly rated varieties.

Those that are not rated are all varieties that have been originated since the ratings were given by the American Iris Society.

The date and name given in parenthesis are the date of origin and name of the originator.
